

APR 10 - APR 12/24

SSI presents

Fluency Plus: A Comprehensive Program for School Age Children and Teens (9+) Who Stutter

Presented by Marni Kinder, MHSc, Reg. CASLPO

OVERVIEW

This three-day workshop is for SLPs who wish to develop expertise in delivering comprehensive treatment for stuttering in school aged children and teens 9 years old & up.

PARTICIPANTS WILL LEARN TO

- View treatment in the broad context of behavioural, cognitive, emotional, and psychological aspects of stuttering
- Identify pre-treatment considerations
- Model specific fluency facilitating skills through hands-on training and experience
- Help clients overcome speech fears through cognitive structuring
- Use effective procedures to achieve transfer
- Develop long-term maintenance planning

Opportunities for small group skill development will be provided.

TOPIC FOCUS ON EACH DAY

DAY 1

- nature of stuttering and pre-treatment considerations
- respiration
- rate control and software applications
- voice onset

DAY 2

- articulatory pressure
- rate manipulation
- constant phonation
- articulatory movement

DAY 3

- transfer and the psychology of stuttering
- maintenance planning
- adaptations discussion
- case discussion and questions
